

Horizon Technology Finance Management Provides \$5 million Venture Loan to Vette Corp, a Leader in Thermal Management

Farmington, CT (August 2008) – Horizon Technology Finance Management and its affiliate, Compass Horizon Funding Company LLC (collectively, “Horizon”), a leading technology lender supporting venture capital backed firms in the information technology and life science industries, announced today that it closed a \$5 million growth capital loan with Vette Corp (“Vette”), a venture capital-backed global leader in thermal management. Vette is bringing its expertise in semiconductor and consumer electronics cooling to datacom facilities.

Gregory E. Clark, Managing Director at Horizon, said, “We are excited about providing this additional capital to fuel Vette’s expansion into the data center. Vette’s expertise in thermal management will bring significant improvements to data center economics.” Clark added, “Vette is a strong addition to the venture loan portfolio we have built here at Horizon over the last four years.”

George Dannecker, Chief Executive Officer of Vette, stated “Horizon’s debt facility will allow Vette to continue our growth in the thermal management space. In particular, this funding will support our unique green datacenter solutions which provide significant energy and space savings to a typical data center – a value proposition which is critical now more than ever. We are pleased with Horizon’s ability to structure a financing facility that fits our international footprint and provides critical leverage to our investor’s capital.” Vette is backed by top tier technology venture capital investors Kodiak Venture Partners, 3i Group, General Catalyst Partners and Alliance Bernstein L.P.

About Horizon:

About Vette Corp

Founded in 2004, Vette Corp is a global thermal management solutions provider solving thermal challenges from the facility level to the component level. The Company's facility level solutions address the significant space, energy and heat challenges in today's growing datacenters and telecom facilities, and provides best-in-class green solutions which significantly reduce energy costs and increase existing capacity. The Company's system and component level solutions address thermal issues at the source and provide design capabilities and product to leading OEM's, operators and owners of computer, communications and industrial electronic equipment.

Vette Corp's extensive solutions and IP portfolio, as well as its design and over 400,000 sq feet of global manufacturing capabilities in China and the US are complemented by world-class supply chain and customer service to offer customers the lowest cost, highest quality end-to-end solutions available for today's complex thermal problems. The corporation is privately held and is headquartered in Portsmouth, New Hampshire, USA. Additional information about Vette Corp can be found at www.vettecorp.com.
